

Frequently Asked Questions

What does PinnacleCare do?

PinnacleCare Health Advisors guide you to appropriate care and connect you with specialists who can provide expert opinions for serious or complex medical conditions. We are an unbiased resource to which you can turn when facing or trying to prevent a major health problem. PinnacleCare services facilitate your access to top specialists who are trained and experienced in your condition to provide an expert review of your diagnosis and treatment options.

How does this differ from what I get through my doctor and health plan?

We work solely on your behalf to help navigate your specific care or treatment. PinnacleCare guides you through what can be an incredibly stressful, confusing and time-consuming process. We work to confirm a diagnosis at the onset and connect you with experienced specialists to inform you about the most current and effective treatment options and collaborate with your doctor as needed.

PinnacleCare works in conjunction with your health plan and other service providers to help you maximize your benefits.

For example, if your doctor recommends back or spine surgery, PinnacleCare can help you consider the available treatment options to assess if surgery is the best option for you. PinnacleCare will work with your medical carrier to help you find the most qualified surgeon from the available premier providers based on the type of surgery you need.

How does PinnacleCare help me?

We help you to prevent inappropriate procedures and treatments that could result in further harm or unnecessary expense. PinnacleCare saves you the time and frustration of gathering your medical records and investigating multiple specialists and facilities for their expertise, performance, insurance coverage and scheduling availability.

How do I access PinnacleCare?

You can speak with a PinnacleCare Health Advisor Monday through Friday from 8 a.m. to 6 p.m. Eastern Time. See your welcome brochure for your member access phone number and landing page.

When should I contact PinnacleCare?

You should contact PinnacleCare when you receive a serious diagnosis or are struggling with a complex condition, a recommendation for surgery, or a significant change in a current treatment plan.

What defines a serious or complex condition?

PinnacleCare defines a complex condition as a serious diagnosis that will involve rigorous treatment, a choice of treatment options, or a prolonged recovery and can result in significant health care costs and/or time away from work. Examples include conditions involving: cardiac, spine and joint replacement surgeries; cancer; transplants; and other serious or complex diagnostic challenges.

Can you provide an example of a change in treatment?

A change of treatment might entail a new drug or a recommendation for a surgical procedure or therapy. For example, if you have been receiving injections for back-related issues and a physician is now recommending surgery.

What should I expect when I contact PinnacleCare?

When you reach out for a PinnacleCare consultation, our intake team will ask for your name, address, and date of birth for security and to confirm eligibility. A Health Advisor will then contact you to gather your medical history and the details of your current diagnosis. Your Health Advisor will review your case and consult with our Medical Team to determine the appropriate course of action.

What services are covered under this benefit?

Depending on your situation, PinnacleCare may provide you with a confirmation of your diagnosis, recommendations on top specialists, scheduling of your appointments, and/or research on your diagnosis and appropriate treatment options. PinnacleCare will coordinate the gathering and forwarding of key medical records to a recommended specialist. Your Health Advisor will also advocate on your behalf for access to information, top specialists, and Centers of Excellence.

How will this work with my health insurance?

There is no cost to you for using the service and obtaining an expert review of your medical records, diagnosis and treatment options. Should you wish to schedule a visit with an expert provider, we will attempt to identify specialists who participate in your health insurance network. We can also provide you with out-of-network specialists for cases where the specialist's expertise may be crucial to your outcome. In those instances, coverage for eligible services will be based on your medical plan's out-of-network coverage reimbursement

level (if applicable) and will be subject to reasonable and customary amounts. Please contact your claims administrator for details about out-of-network coverage based on the health care plan you are enrolled in.

Are our conversations kept confidential?

Yes, all of your interactions with PinnacleCare are confidential. We are a HIPAA-compliant company and maintain the privacy of your protected health information.

Can you also find a doctor for routine/primary care?

Yes. Primary care physicians are your partners in health. PinnacleCare interviews each identified physician as part of their vetting process and ensures we select physicians that match your preferences and needs. It is important that a physician's education, pursuits of specialized training and areas of interest and clinical focus be considered. PinnacleCare also uses patient experiences to collaborate research findings when possible; for primary care physicians, patient feedback can often serve as an important data point for validating thoroughness and dedication to patient care.
